MACARON LAMP BY SILVIA CEÑAL IDARRETA

A macaron is a sweet meringue-based confection made with simple ingredients like eggs, icing sugar, granulated sugar and almond powder. However get the perfect result is not easy.

Macaron lamp follows the same idea, with simple materials and right proportions, get a lamp with personality. Wood conveys us warmth and strength. Besides adding the cord as a link between the two pieces of wood, give a touch of originality with its texture and color. The same as the different flavours of the macaron.
